IMPORTANT MEETING

Conference of Far-Reaching Importance to Labor.

MET AT WASHINGTON, D. C.

Conference Will Continue Several Days—Many Questions To Be Considered, Such as Sherman Anti-Trust Act, Etc.

Washington, March 19.—A conference of far-reaching importance to labor began here Wednesday. Participating are President Gompers, and the mambers of the executive council of the Federation of Labor, together with the executive officers of the International Trades Unions of America who met pursuant to a call issued by President Gompers to consider the consequences of the recent injunction decisions of the supreme court of the United States affecting labor organizations with particular reference to the Danbury hatters' case, in which that court substantially held that labor organizations were to be considered trusts as much as organizations of capital.

After calling attention to the significance of these decisons, Mr. Gompers stated that the conference was for the purpose of "taking such action as the importance and merits of the subjects dealt with may be considered and determined as setting forth the position and demands of labor." The court's rulings, he pointed out, were binding upon all labor organizations until so changed or modified by congressional action.

The object of the conference therefore was to consider the proposed amendments to the Sherman anti-trust act which are being drafted with a view not of exempting labor organizations for the obligations to the public, but rather to prevent any injustice being done through the operation of law to organizations of laboring men, particularly through injunction.

It is desired to so frame the proposed changes in the Sherman law as to meet the requirements of the supreme court decisions. The proposed amendments are the result of recent conferences at the White House with President Roosevelt, and it is hoped to secure remedial legislation along these lines at this session of congress.

President Gompers stated that matters of importance to every union man would be discussed and an effort made to formulate plans to offset the rulings of the various courts regarding injunctions and boycotts.

There are one hundred and seven-teen national and international traders' unions in America and practically all of them were represented by one or more delegates at the meeting. The conference, which was had behind closed doors, will continue several days.

FOUGHT IN DARK HALL.

Then Men Fell Headlong Down Three Flights of Stairs—One Dies.

Cincinnati, March 19.—Wrestling in a dark hallway and falling headlong down three flights of stairs, John S. Baldwin, aged thirty-six, and Edward Warden, aged forty-four, fought a desperate battle in the latter's home on West Court street, early Wednesday, and Warden is dead as the result of injuries from a hammer said to have been wielded by Baldwin.

Baldwin, who at once gave himself up to the police, claims that he acted in self-defense, suffering an ugly scalp wound before he wrested the hammer from Warden and used it with fatal effect.

Baldwin accuses his wife of having caused the trouble.

No Sunday Baseball.

Montgomery, Ala., March 19.—G. W. Miles, president of the Law and Order League, has notified Sheriff Hood that any attempt to play baseball on Sunday would be followed by warrants for the players. The officers were notified that they would be expected to see to the enforcement of the law which, Mr. Miles says, has been pronounced constitutional by the attorneys for the league.

JEALOUS MAN CREATES PANIC.

Fired on Crowd, Killing One Man, and Then Attempted Suicide.

Cleveland, O., March 19.—William Krueger, twenty-one years of age, opened fire Tuesday on a crowd of men and women in a restaurant and instantly killed Edward Draudt, forty years of age; severely wounded James Barr, and then attempted to commit suicide.

After the shooting the young man went to the sidewalk and here turned the revolver against his own head and fired. It is believed Krueger will die of his wound.

Previous to the shooting Krueger is said to have stood in a side door leading into a saloon and from this vantage point scanned the faces of all the occupants of the restaurant. As Barr passed him in the doorway, the police say, Krueger was jostled and opened fire upon Barr and then turned the revolver aimlessly upon the crowd. A panic ensued, men and women seeking shelter beneath the tables and a lunch counter.

It is believed by the police that Krueger was looking for some particular man or woman whom he thought may have been in the restaurant and that his anger was due largely to a fit of jealousy.

MONEY SENT OUT OF STATE.

Said That Southern Road Has Abolished Its Georgia Depositiories.

Atlanta, March 19.—Within the past forty-eight hours the Southern Railway company, by order of its treasurer, in Washington, D. C., has withdrawn half a million dollars from the banks in the state, and deposited that money in the First National bank of Chattanooga, the reason for this action being taken to keep lawyers from making attachments and serving garnishments on the funds of the road in Georgia.

Every depository of the Southern in Georgia now ceases to exist, and what money the banks hold is all going to Chattanooga, and has been going for the past two days. The funds are shipped every night by express. The order issued covers every city in the state of Georgia in which the railway had deposits.

It is estimated that the total amount of business done daily in the state by the Southern amounts to $150,000 and over.

The estimate on the amount having left the state is $500,000.

HIS 71ST BIRTHDAY

Former President Cleveland Celebrates Occasion.

HE IS IN EXCELLENT HEALTH

Received Congratulatory Telegrams From All Parts of the Country—Asked About National Questions, He Declinel to Discuss Same.

New York, March 19.—Grover Cleveland quietly celebrated his seventy-first birthday at Lakewood, N. J., Wednesday. The twenty-second and twenty-fourth president of the United States, though past the alloted three-score years and ten, took a long walk Tuesday and seemed to be in excellent spirits.

Wednesday morning Mrs. Cleveland and the children came over from Princeton to spend the day with him. Each of the children brought some present. It is understood that the Princeton students will send the former president a congratulatory telegram.

"I have not felt so well in many a day," said Mr. Cleveland as he walked in the lobby of the Lakewood hotel Tuesday. "Why I took a longer walk today than I have taken in past months. I feel fine. In fact, I believe I am in much better physical condition than I have been for a long, long time."

Mr. Cleveland has undoubtedly lost a good deal of flesh, but his medical advisers say that he is now in better health than he has been for some months.

"How about the national questions of the democratic party?" Mr. Cleveland was asked.

He made it plain that he did not care to discuss political issues. "I do not see what I could say that will be of public interest," he said to one of his friends.

From all parts of the country congratulatory telegrams are pouring in.

Whenever Mr. Cleveland appears in the lobby of the hotel he is at once seized by friends wishing to shake hands with him.

"HONEST JIM" ELECTED.

"Village Blacksmith" Again Receives Overwhelming Majority.

New York, March 19.—"Honest Jim" Reilly, the village blacksmith of North Pelham, one of New York's most popular suburbs, was re-elected president of the village Tuesday for the third time by the largest majority he has ever received.

The women and children of the village made an enthusiastic campaign in his favor, the reason for their activity being that Reilly organized a uniformed police force and rid the village of toughs who formerly congregated on the street corners and made insulting remarks to women.

They met every train into North Pelham and no one escaped them before he had been to the polls and cast his vote. When the result was announced, a great crowd of people, including many women and girls, marched to the smithy and cheered Reilly to the echo.

Guiseppe Alia Made Confession to Woman at Paterson, N. J.

WHISPERED DARK PROPHECY

Father Eusebius, Who Returns From Paterson, Has Information That May Put Police on Track of Blood-Thirsty Band of Anti-Clericals.

Denver, Colo., March 19.—The News says:

To an Italian woman of Paterson, N. J., Guiseppe Alia, who murdered Father, Leo Heinrichs at the altar of St. Elizabeth's Catholic church in this city, whispered a black prophecy on the eve of his departure for the west.

"Within six months you will hear of a murder that will shock the world," said he. When over the wire came the news of the assassination in Denver, the woman, stricken with terror, repeated the words of the man.

Father Eusebius learned that Father whither he journeyed with the body of the dead priest, was informed of the interview which Alia had with the woman, and caused inquiries to be made. He returned to Denver Tuesday night with news that may put the police on the track of a blood-thirsty band of anti-clericals.

Fatohr Eusebius learned that Father Leo had informed certain priests in Chicago some time ago that he had received threatening letters. The writers declared they would kill him because of his denunciation of anarchy.

Search is now being made among the effects of Father Leo for those letters.

RILEY'S OLD "SWIMMING HOLE."

Attempt to Destroy Its Identity Defeated in Indiana Supreme Court.

Chicago, March 19.—A dispatch to the Tribune from Indianapolis, Ind., says:

The attempt to convert Brandywine creek into a ditch, thus destroying the identity of the "old swimming hole" which James Whitcomb Riley has made famous in one of his poems under that title, was defeated by a decision of the supreme court.

The movement was started by citizens of Greenfield, and was bitterly fought by others, Dr. Riley being asked to use his influence to prevent the destruction of his favorite boyhood haunt.

The court holds that the stream cannot be converted into a ditch because the necessity for it has not been made apparent by the petitioners.

FRAMES ANTI-JUG LAW.

Amendment to Ocean Mail Shipping Measure by Clay.

Washington, March 19.—In order to insure to states and territories full control of the liquor traffic within their own borders, Senator Clay, of Georgia, introduced an amendment to the ocean mail shipping bill, providing that "all fermented, distilled or other intoxicating liquors or liquids transported into any state or territory for consumption, sale or storage, shall, upon arrival within the borders of the state and before or after delivery to the consignee, be subject to the operation and effect of the laws of such state or territory, enacted in the exercise of its police powers to the same extent and the same manner as though such liquids or liquors had been produced in the state and shall not be exempt by reason of being introduced in original packages or otherwise."

Lower Rates Ordered.

Columbia, S. C., March 19.—The railroad commission has decided to order the Seaboard Air Line, the Blue Ridge and the Columbia, Newberry and Laurens railroads to put in effect by April 1 the reduced passenger rate of 2½ cents per mile. These lines protested against the reduction from 3 cents per mile, but were willing to issue mileage books at the same rate as other lines. The decision of the commission is very important, and may be carried to the courts.

ANTI-SALOON LEAGUE CLOSES ITS SESSION

After Three Days' Work Members Will Return to Their Homes.

FINE SPEECHES WERE MADE

Among the Speakers Were Hon. J. N. C. Stockton, Hon. Jefferson Browne and Others—Officers Elected—Headquarters Changed to Jacksonville.

Thursday's sessions of the State Anti-Saloon League were intensely interesting throughout. The morning session opened at 10 o'clock, with devotional services by Rev. W. C. Foster of Alachua. President Nixon then introduced Hon. Jefferson B. Browne of Key West. Mr. Browne discussed "The Need of National Legislation and Why." This was probably the greatest speech delivered during this convention and that it was a delight to the audience was shown by applause, which interrupted the speaker every few minutes throughout his address. Mr. Browne is always a pleasing speaker, but on this occasion, with an audience thoroughly in sympathy with him, a subject to which he has given wise thought—a matter, the importance of which rests upon his heart as one of the most important confronting the people of the State—was at his best, and he thoroughly aroused and enthused the convention upon the subject of State prohibition.

Mr. Browne was followed by Mr. Lawrence, with an instructive address on "Field Day; What Is It? and Why It Should be Held." Mr. Lawrence's address was brimful of helpful suggestions, born of a large experience in prohibition work, and will no doubt be helpful to the work in this State.

"Agitation and Public Sentiment Building" was ably discussed by Rev. W. J. Carpenter. Mr. Carpenter's many friends in the city were delighted to again have the opportunity of hearing him. He was for four years pastor of the Methodist church here, and is today one of the most popular preachers of the State.

The afternoon session was one full of interest. The devotional exercises were conducted by Rev. Mr. Thrasher of Micanopy.

In the absence of the secretary, Rev. M. A. Clonts of Key West was elected secretary pro-tem.

"The Methods of the Liquor Men in Prohibition Elections" was the subject of an address by Rev. C. C. Carroll, of Ocala. Mr. Carroll is a humorous speaker, and kept his audience smiling while he revealed the manner in which the liquor element defeated the prohibitionists in old Marion.

A paper prepared by Rev. E. A. Harrison on "The Use of Temperance Literature," was read by John P. Coffin of Eustis, and discussed by a number of members of the league.

In the evening the devotional services were opened by Rev. M. A. Clonts of Key West, which was followed by an eloquent address by Hon. Christopher Matheson along general lines. Col. Matheson was followed by Rev. W. J. Carpenter, who took the place of Governor Broward, who could not be here.

Election of Officers.

The following officers were elected during the day for the following year:

President, Hon. J. L. Jones, Arcadia; A. D. Stevens, Jacksonville, first-vice-president; Rev. J. S. Sibley, Pensacola, second vice-president; Dr. A. L. Lalar, Ocala, third vice-president; Rev. J. H. Richardson, Ocala, secretary; Rev. W. R. Lambert, Gainesville, superintendent; Rev. Brooks Lawrence, Birmingham, Ala., general supervisor.

Jacksonville was selected as the general headquarters, that point being more accessible than any other in the State.

In all, the meeting was a most successful one, well attended, and great good is anticipated as a result of the convention.

UNIVERSITY OPEN HOUSE.

Campus and Buildings Will be Open to Public This Evening.

There will be an "open house" at the University this evening from 7:30 to 10:30 o'clock, when it is hoped that a good crowd will be present.

Invitations for this function have been sent out, with the information that conveyances will run from the square, in order to accommodate those who have no means of conveyance. Dr. Sledd and the faculty are specially anxious to have the citizens come and see what is being done, and note the rapid improvement of the University from the time ground has been broken for "the new State school."

Guests will be shown through the grounds, and all buildings, including the rooms and quarters of the students, will be thrown open for inspection, so that everyone can see how a "University professor" and a "University student" fares.

WEAK WOMEN

A Letter of Interest to Many in Gainesville.

After a very long and trying experience, Mrs. W. C. Parker of Jackson, Michigan, writes a friend as follows: "I have been sick and all run-down for more than a year. I took all kinds of medicines that were recommended by friends. I was in such a nervous condition that I could not bear the slightest noise, and so weak that I could hardly walk up stairs. A friend advised me to try the cod liver preparation, Vinol, and I did so with wonderful results. My weakness and nervousness are all gone, I can walk any distance, and have gained very rapidly in strength and flesh. I am writing you of my experience in order that you may advise anyone whom you know is suffering as I was what to take."

This is only additional testimony in regard to the value of our cod liver preparation, Vinol, which we have so unhesitatingly recommended to the people of Gainesville for the last few years. Vinol is not a patent medicine, but a cod liver preparation made by a scientific, extractive and concentrating process from fresh cods' livers, combining with peptonate of iron, which is a needful constituent for the blood, all of the medicinal, healing and body-building elements of cod liver oil, but no oil.

We ask every person in Gainesville who is run down, nervous, debilitated and every aged, feeble person to try Vinol on our guarantee to return money if it fails to give satisfaction.—W. M. Johnson, Druggist, Gainesville, Florida.

THE VAN AMBURG SHOWS.

Large Crowd Was Present at Both Entertainments Thursday.

One of the best circuses ever visiting Gainesville was the Van Amburg show, which exhibited in this city Thursday, afternoon and evening, to delighted audiences.

This was the first appearance of the Van Amburg shows here, but those who witnessed it said it was as good of the kind as ever seen here. The show is clean, refined and up-to-date in every way. There appeared to be an absence of the usual "grafters" which follow a show of this magnitude, as the management of the show does not allow them.

The performance, from the beginning to the end, is clean and refined, and those who attended were delighted to witness a circus of such a clean nature.

MR. SAMMIS AT HOME.

Well Pleased With Gainesville and Those He Met Here.

E. H. Sammis of New Canaan, Conn., who spent several days here as a guest of Mr. and Mrs. M. B. Saunders, and who was delighted with what he saw here, has returned to his home in the East, where he has again settled down to business. Mr. Sammis arrived in New York safely Friday night, going via Clyde Line, and was met in that city by his good wife.

Mr. Sammis writes to Mr. Saunders to the effect that everything he saw in Florida "suited him right," and that he would never forget the hospitality extended him here, as well as the green fields of Alachua around Gainesville.

Miss Florence Sammis, daughter of Mr. Sammis, is still here as a guest of Miss Alice Thomas, and declares that she is so well pleased that she will not leave until she is "compelled" to do so. If Miss Thomas and her estimable mother, Mrs. Saunders, had their way, they would be willing if she became a "real resident" of Gainesville, as they do not desire to see her leave. Miss Sammis has been quite an addition to society here, and all will regret very much to see her laeve.

NOTABLE MEDICAL DISCOVERY

Of Special Value to Many Here in Gainesville.

A notable medical discovery and one that appeals especially to many people in Gainesville is the combination of stomach remedies in the Mi-o-na treatment. This preparation has worked wonders in cases of indigestion or weak stomach.

It acts specifically upon the walls of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten without distress or suffering.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by J. W. McCollum & Co. under an absolute guarantee to refund the money if it fails to cure. With an offer like this, none can afford to suffer with indigestion or stomach troubles. A 50-cent box of Mi-o-na will do more good than half-a-dozen boxes of ordinary digestive tablets.

COTTON BEING HELD.

H. A. Thomas of Alachua Says a Thousand Bales Are Yet Unsold.

H. A. Thomas of Alachua was in the city Wednesda"

Mr. Thomas is not only an extensive farmer, but raises a great deal of cotton, and, being independent, holds his goods until the time he thinks the price is right.

"There are a thousand bales of cotton in the Alachua warehouse and the Alachua section now," he said. "We have made up our minds to keep our cotton until we can find somebody to pay the right price, and I am thankful to say we are all sticking together."

Mr. Thomas released a few bales of his own cotton a few days ago, however, as he secured the right price.

The remains were conveyed to the private cemetery, where an elegant vault was provided several years ago, and around which the last sad rites were read.

AWFUL CREATURE WAS NINETY FEET LONG

Recent Grewsome Experience of a Chicago Man is Sample of a Series of Such Cases

During L. T. Cooper's recent visit to Chicago, where his new preparation and theory created the usual sensation, many hundreds of people brought enormous internal parasites to the young man, which had left the system after taking his medicine.

Among these people was Mr. Emil Winkler, who brought to Cooper a tapeworm that proved to be over ninety feet in length. Mr. Winkler, who resides at 182 East Ohio Street, Chicago, had this to say of his experience: "For five years I have been more or less complaining. I have had severe headaches, and any food that I would eat would nauseate me. I would have bad dreams almost every night; dizzy spells would compel me to quit work. Black spots would appear before my eyes when stooping over and rising quickly. I would feel tired most of the time; in fact, I had no life in me to speak of for the last five years. I tried various treatments, and one physician in St. Louis was recommended to me, and I was under his treatment some time, but as usual I obtained no relief.

"So many people asked me to try Cooper's preparation that I decided to do so, and after using it for a few days, this awful thing passed from my system. I feel much better already, and I want to say right here that I thank Mr. Cooper a hundred times for what his medicine has done for me. I would not take $5,000 and have that thing back in my system again."

Mr. Winkler is a fair sample of the experience of many during Cooper's stay in Chicago, and this no doubt helped to account for the enormous sale of the Cooper preparation in this city and others, recently visited by the young man.

We sell and will be pleased to explain the Cooper preparations.—J. W. McCollum & Co.

Mr. Newman of Washington, inspector of United States land offices and surveyor-generals' offices, after several days spent in this city, has gone to Montgomery, Ala. Mr. Newman, while he had nothing to say for publication, complimented the Gainesville office very highly, intimating that Register Chubb and Receiver Warren "were on to their job," to use the expression. He also complimented Clerk Wainwright and the other members of the clerical force on their work, which he declared was clean and correct.

L. W. Knight of Cadillac was in the city yesterday. Mr. Knight is engaged in circulating a petition for aid in behalf of M. M. May, who had the misfortune to lose his home and most of the contents at Forest Grove on Friday night of the past week. The loss was about $1,500, with no insurance, and Mr. Knight desires, so far as possible, to reimburse Mr. May by popular subscription. Anyone desiring to donate may send the money to Mr. Knight at Cadillac, when the same will be promptly acknowledged and appreciated.

A Noted Cooking Authority Endorses Cottolene

Marion Harland Says:

"COTTOLENE is now so well and favorably known and so widely used that it needs no word of introduction or commendation from me. The most eminent of American chemists justly says that it 'possesses all desirable qualities of lard without the objectionable features inherent in all products obtained from swine.'

"COTTOLENE the 'desirable' substitute, is purer, more healthful, and more economical than lard."

When Marion Harland, one of the best known and most reliable food experts of the day, recommends COTTOLENE in such glowing and unqualified terms, you may be sure of its purity and healthfulness.

COTTOLENE is made from pure Cotton Seed oil refined by a special process. Because it contains nothing but healthful ingredients, it cannot help but make healthful food. It produces light, crisp, easily digested pastry, doughnuts, cakes, cookies, bread and biscuits. It is economical, too, one-third less being required than of either lard or cooking butter.

Prove the merits of COTTOLENE to your own satisfaction by a personal test. It has always been granted highest award wherever exhibited in competition with other cooking fats.

Cottolene is Guaranteed We hereby authorize your grocer to refund your money in case you're not pleased after having given COTTOLENE a fair test.

Never Sold in Bulk COTTOLENE is packed in pails with a patent air-tight top, to keep it clean, fresh and wholesome; also to prevent it from absorbing the disagreeable odors of the grocery, such as fish, oil, etc.

UNIVERSITY NOTES

Everyone in Gainesville is invited to visit the campus, fields, and buildings of the University and Experiment Station tonight (Friday, March 20) from 7:30 to 10:30. Free conveyances will begin to run from the court house square to the University at 7 o'clock and will continue to make frequent trips for the next hour and a half. The early visitors will find the grounds and buildings illuminated, and will have an opportunity of hearing the Student Brass Band play until 7:50. Then the trumpeters will sound the "Call to Quarters," and the cadet barracks will be thrown open for inspection.

At 8:30 the trumpeters will blow the "Release from Quarters." The next hour and a quarter, according to the program arranged, will be spent in inspection of the class-rooms, laboratories, Experiment Station, green house, shops, swimming-pool, etc., and conveyances will leave at intervals of about five minutes from in front of the chapel to make trips around the grounds.

At 9:45 there will be music by the band, followed by some selections given in the chapel to be rendered by Gainesville talent. Then a short and informal address will be delivered by Dr. Sledd, at the close of which he will be glad to answer any questions concerning the University.

At 10:30 the trumpeters will sound "Taps."

Attention, Knights of Pythias.

The Faculty of the University of Florida have extended a cordial invitation to our lodge, to attend the University open house reception this evening and have liberally provided conveyances to carry all their guests out to the University from court house square.

I would suggest that the members of our lodge meet at the west corner of court house square at 7 o'clock p. m., as many as can possibly attend, and let us show our appreciation of courtesy by sending a large delegation of our members in acceptance of the invitation. W. D. DICKINSON, C. C.

Alachua is far behind many of the other counties so far as the crop of candidates is concerned.

The picnic season is now on and the woods around Gainesville are favorite resorts for the young people.

In store-advertising, be sure of adequacy, human interest and persistency—and "the greatest of these" is persistency!

The orange bloom is said to be especially heavy this year, and The Orlando Reporter-Star says the crop will be the largest since the freeze.

The Sun is pleased to note that The Live Oak Daily Democrat has resumed its original form of eight pages. The people of Live Oak should liberally support their excellent local newspaper.

Stores don't "just happen to prosper" any more—as we are told that they used to. For effective advertising, which is interlinked with all store-growth nowadays, doesn't just "happen."

It is pleasing to note the rapid increase of The Sun's subscription list. Our traveling solicitor, Mr. G. D. Folks, is doing good work in this line, and the value of the paper as an advertising medium is daily increasing.

Hon. John N. C. Stockton, the leading candidate for Governor, was a welcome visitor to Gainesville this week. Mr. Stockton is no stranger to the people of Alachua county and will receive a flattering vote here at the coming primary.

The press bulletins issued by the Experiment Station of the University of Florida are of great value to the farmers and stock raisers of Florida, and should be preserved for future reference. The Sun is glad of the opportunity to print them.

The people of Tampa are wrought up over the possibility of the loss of the Cuban mail line, which would mean the diverting of nearly all Cuban traffic through Knight's Key. Every effort will be made to retain this service, but it is possible that the mail will be taken by the shortest route.

Governor Broward was accorded a most hearty welcome upon his recent visit to Miami. The Governor has reason to feel proud of his increasing popularity in the Everglades section, and if his drainage operations prove as successful in the rainy season as they have during the extended drought in the 'Glades he will be the most popular man in Florida all along the East Coast.

There is at least one candidate in Hamilton county who has the courage to express his convictions. His name is J. W. Bynum, and he is seeking to go to the Legislature. In his platform he says: "I shall favor local option as it now appears in our State constitution and oppose any measure which would prohibit any citizen from ordering a bottle or jug of liquor whenever he wishes to do so." Mr. Bynum's courage is more to be admired than his judgment, from the standpoint of political policy.

A NEW DISCOVERY.

The Philadelphia Record says Undertaker J. P. Rose of Brownsville, Pa., believes he has discovered the secret of Egyptian mummy embalming, and crowds visit his establishment daily to gaze on a dead unknown, into whose body he has been injecting a secret preserving fluid daily for the past six weeks.

The man was killed by a train on January 20. No one claimed the body, and the undertaker secured it, guaranteeing a decent burial, when his experiments were finished.

In nearly fifty days that have passed since there has been no change in the appearance of the body, except that it has become almost white and as firm as marble. After a week the beard of the stranger grew to the length of a quarter of an inch. A shave was regarded as necessary, and the undertaker sought for several days before he found a barber willing to undertake the job. Since then the mummy has been given a clean shave once a week.

ANOTHER CANARD.

All the most accomplished inventors of the world-wide political extravaganzas seem to have settled down in Paris as headquarters. Their latest canard is that the United States is about to sell the Philippine Islands to Germany. The sending of the battle fleet to the Pacific has to be accounted for somehow and the Paris inventive experts say the fleet "will go to Manila as a precautionary measure in case Japan should become irritated when the deal for the Philippines is disclosed." Bah! The United States sells nothing, and an administration that would propose to turn over the Philippines to the tender mercies of Germany would find its political house falling about its ears.

The DeFuniak Breeze informs us that if anyone wants some very valuable information on the fertilizer question they should send to Commissioner McLin for a copy of the January number of The Bulletin which contains State Chemist Rose's annual report. All it will cost will be a postal card, and the information is worth dollars and lots of them to every farmer in the State. Among other things it contains a number of formulae for home fertilizers. When you pay taxes you are paying for this information, and you ought to get what you pay for.—Live Oak Democrat.

Three years ago and more, October 7, 1904, the Democrats of Massachusetts, at the convention which nominated William L. Douglas for Governor, declared that Roosevelt's course was full of peril, and that his career was a disappointment. That declaration was ratified by the people who elected Mr. Douglas Governor, though Massachusetts was normally Republican by a large majority. Today the majority of the people of the entire country are prepared to endorse that declaration.

A Waldo correspondent suggests the name of E. W. Millican for County Commissioner. He says Mr. Millican is in every way qualified for the position and would make an excellent official. The correspondent says nothing is to be said against the present commissioner, but that the people of that section are entitled to the office this time.

News comes from all over the State that the people are manifesting very little interest in politics. The candidates for State offices are unable to get very large crowds out to hear them and it has been suggested that they arrange joint debates. It is probable that such will be done during the next few weeks.

The people who have known Albert Gilchrist from boyhood no more believe that he would be guilty of a dishonorable act than they do that John Stockton is the candidate of the "corporations." All the candidates for Governor are honorable gentlemen, and it is to be regretted that some over-zealous friends of any one candidate should endeavor to besmirch the character of another. Let's have a clean, manly fight, brother editors, and when the contest is over we will all feel the better for it.

The claims for broken jugs consigned to different points in Georgia were so extensive that the Southern Express Company found it unprofitable to handle the business, hence the order to agents not to accept shipments of liquor consigned to residents of that State. This will result in an increased business in the freight line.

Now that John Stockton has "got busy" in his own interest for Governor the other candidates are also "in the saddle" and scouring the woods in search of votes. They realize that Mr. Stockton is possessed of great energy and is hard to beat in a whirlwind campaign.

The serious illness of Senator W. J. Bryan will prevent an active canvass on his part during the contest now on for his seat. In his misfortune he and his family have the sympathy of the whole people of the State.

The old St. Francis barracks in St. Augustine have been transferred by the National Government to the State government, and will shortly be converted into a State arsenal.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is doing wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

To be more exact, there are 8,737 enrolled.

Five dollars a crate for celery sounds awful big, but that is the price that some Manatee celery has been sold for. Of course this price is a little above the average, but $3.50 and $4 sales is the price being received all around. This is mighty good, and means between $3,500 and $4,000 an acre for this toothsome vegetable. If the markets hold up the Manatee county growers will be well to the good when the season is over with a sufficient bank account to spend the summer in the mountains.—Manatee Record.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." Why not let it help you? J. W. McCollum & Co.

HEMORRHOIDS SORES AND ECZEMA

Accompanied by Terrible Itching—A Complicated and Most Distressing Case—Well-known Remedies Failed to Cure—Doctor Thought an Operation Necessary—Then

CUTICURA PROVED ITS WONDERFUL EFFICACY

"I am now eighty years old and one morning, three years ago, I was taken with a hard pain in my right side. In two days I had an attack of piles (hemorrhoids), bleeding and protruding. The doctor gave me some medicine and an ointment for them which helped me some but I had to keep using them all the time. Then I changed to the P—— remedy; but if I did not use it every day, I would get worse. The doctor said the only help for me was to go to a hospital and be operated on. At this time, about a year ago, I went to using the S—— remedies. I tried them for four or five months but did not get much help for my piles. During this time sores would come on a fleshy part of my body. They bothered me all the time. I would get one healed and another would come. These sores changed to eczema, accompanied by a terrible itching. It seemed as if I could not keep my hands from tearing my flesh. This and the pile trouble brought on an inflamed condition. Then I got the Cuticura Remedies. I washed the affected parts with Cuticura Soap and warm water in the morning, at noon, and at night, then used Cuticura Ointment on the irritated surfaces and injected a quantity of Cuticura Ointment with a Cuticura Suppository Syringe. I also took Cuticura Resolvent Pills three times a day. It took a month of this treatment to get me in a fairly healthy state and then I treated myself once a day for three months and, after that, once or twice a week. It is fortunate that I used Cuticura. The treatments I had tried took a lot of money that I would have saved by using Cuticura Remedies sooner, but I am wiser now. I am supplied with a full set of the Cuticura Remedies and would not feel safe without them. J. H. Henderson, Hopkinton, St. Lawrence Co., N. Y., Apr. 26, 1907."

The dead: William A. Huff, of Cincinnati, O.; Richard Lawrence, of Chicago; Fred Monson, of Pekin, Ill.

The men were in the employ of the Kelly-Atkinson Construction company, of Chicago, and with others reached here in the morning. Later on while raising one of the heavy beams a chain broke and the three men were crushed to death.

Arrested on Old Murder Charge.

Portland, Ore., March 19.—A dispatch to the Oregonian from Vancouver, Wash., says Jack Collins was Tuesday arrested at the request of the authorities of Pike county, Kentucky, on a charge of murder alleged to have been commited at Pikeville several years ago. Collins, whose name is said to be Jefferson Bovine, admitted the killing but declared it was done in self-defense.

DEATH OF MR. FUTCH.

Santa Fe Correspondent Tells of Mr. Futch's Career and Usefulness.

Santa Fe, March 19.—One of the oldest members of the Stonewall Camp of U. C. V. has passed over the river and is resting under the shade. Eli Futch, or "Grandpa" Futch, as he was called, passed away on the morning of the 16th, surrounded by his sorrowing family and admiring friends. He was taken sick on the 3rd with lagrippe. Notwithstanding all that could be done by his devoted children and friends, he lingered until the above mentioned time. His remains were interred in the Futch burying ground at New Hope on the 17th, surrounded by his devoted relatives and a large concourse of friends. The funeral was conducted from the residence of his son-in-law, W. M. Blitch, Rev. W. C. Foster of Alachua officiating. The pall bearers were Hon. T. A. Doke, Capt. H. C. Parker, Ivin Holder, J. E. Hill, M. Mansfield and J. P. Pope.

"Grandpapa" Futch was nearly fourscore and three years old, devoted to his children and his country. He is dead but his memory will live.

FATAL FAMILY AFFAIR.

One Man Killed, Two Others Wounded at Saratoga, Tex.

Beaumont, Tex., March 19.—At Saratoga, forty miles northwest of this city, Tuesday afternoon, Tom Williams was killed and R. Wilson and Blase Latiolas were wounded by a charge fired from a shotgun by Albert Clampitt, who surrendered.

The shooting occurred at William's barber shop, and the shot was fired at Williams. Wilson was an employee of the place, and Latiolas a bystander. The trouble between Williams and Clampitt is said to be a family affair.

France and Moroccan Question.

Paris, March 19—The Gaulois learns from a high diplomatic authority that the government has decided to renounce the act of Algeciras relating to reforms in Morocco and will request the powers either to summon a new conference or place the entire Moroccan question before the Hague tribunal. The first step, however, will be to put the matter before the chamber of deputies for a vote of confidence thereon.

Boy Was Tied to Stake.

Suffern, N. Y., March 19.—Russell Stuart, ten years old, is in a critical condition suffering from burns received when an older boy while playing Indian, tied him to a tree and built a fire under his feet. The boy's screams attracted men who were working nearby and he was released, but not until he was so badly burned that it is feared he will lose at least one leg.

COMFORTING WORDS

Many a Florida Household Will Find Them So.

To have the pains and aches of a bad back removed; to be entirely free from annoying, dangerous urinary disorders is enough to make any kidney sufferer grateful. To tell how this great change can be brought about will prove comforting words to hundreds of Florida readers.

A. Oerting, seaman, of 419 L. street, Pensacola, Fla., tells how to do it. He says: "From my experience with Doan's Kidney Pills I can strongly recommend them to anyone in need of a good medicine for the kidneys. Kidney complaint and backache caused me suffering at intervals for years. The first or second attack I did not mind, but as time went by they grew worse and at times laid me up. I could hardly walk and it was a difficult matter to straighten up after stooping, while the kidney secretions were irregular and unnatural. Doan's Kidney Pills cured me. From personal experience I know that this remedy can be depended upon to fulfill the representations made for it."

Catarrh —

A Guaranteed Cure

One thousand retail druggists who are the leaders of the drug trade of the United States, and that means the world, rated by Bradstreet's and Dun's at twenty million dollars and whose retail business aggregates over seventy million dollars annual sales, have agreed to give their name, financial backing and endorsement to the guarantee that Rexall Mucu-Tone will cure any disease or trouble arising from catarrh or they will refund the money. We are proud of our connection with the Rexall Remedies, particularly so of Mucu-Tone, because a remedy must be something out of the ordinary to get our backing. It is not all profit that leads us and our one thousand associates into endorsing this remedy; it is our years of experience with medicines and our knowledge of them that makes us believe that Rexall Mucu-Tone is a bona-fide discovery for the cure of all ailments due to catarrhal affection. We know that it is not a cure all, but a remedy built on scientific lines and not a patent medicine as each one of the one thousand druggists knows its formula and its value. It has one great additional value besides curing constitutional catarrh—that it is a system builder. No such tonic was ever before designed for the curing of inflammation of the mucous membrane—nor can it be improved on in the present age. Just stop and reason with yourself for one minute. We are doing business right here in your midst. Could we afford to offer our name and endorsement to Mucu-Tone as we do if we did not know that it was an honest medicine? Could we afford to agree as we do that we will refund every penny paid us for the medicine if it does not benefit.

All we ask is the customer's word and the empty bottle and we hand the money back. No signed certificate. We believe the public, especially the sick, are honest, certainly every sick person who suffers from any of the following ailments should take advantage of our offer to-day. Rexall Mucu-Tone cures catarrh of the nose, throat, stomach, intestines, liver, kidneys or bladder, and any who are convalescing from sickness of any kind should take advantage of our offer and purchase what we recommend as the best tonic ever sold in a drug store. We have a large trial size at fifty cents and we guarantee it or refund your money.

A REASON

The Rexall Remedies *deserve* confidence.

As all these Remedies are grouped under one name, they must succeed or fail together. There must be no weak links in this chain. One unworthy remedy would mean disaster for the entire plan. If you, for example, purchased the Rexall Cough Cure and were not cured by it, how could we expect you to place any faith thereafter in the Rexall Dyspepsia Cure or any other member of the Rexall family?

You can understand, therefore, why such anxious care was given to finding and choosing the remedies to which the name "Rexall" was given. We have admitted none to this circle until our committee of experts had been convinced by investigation and test that it was the *best remedy known to medical science* for the ailment it aimed to relieve.

Who should know better than the leading thousand druggists of this country what are, and what are not, efficient medicines?

Remember, the success of our enterprise depends on the merit of *each individual* remedy. Our reputation, which is our very business existence, is at stake. Can you doubt that in buying a Rexall Remedy you are buying the best that science and experience can give you?

DANGER PROBABLY OVER.

Foreign Warships Have Quieting Effect on Haitien Situation.

Paris, March 19.—Official advices received here from Haiti indicate that the arrival at Port-au-Prince of foreign warships has produced the desired effect upon President Nord Alexis.

M. Cartrom, the French minister, advises that the government has abandoned its intransigeant attitude, that the re-embarkment of the refugees has been authorized and that safe conducts have been granted for the departure of General Firmin and the other revolutionary agitators who had taken asylum at the legations and consulates at Port-Au-Prince and Gonaives. M. Cartron gives much credit for this improved state of affairs to the active intervention of M. Borno and the minister of state, who was the first to counsel this course of action.

All danger of an attack on the legations or consulates is now considered at an end.

Notice to Our Customers.

We are pleased to announce that Foley's Honey and Tar for coughs, colds and lung troubles is not affected by the National Pure Food and Drug law as it contains no opiates or other harmful drugs, and we recommend it as a safe remedy for children and adults. J. W. McCollum & Co.

JUMPED INTO ELEVATOR SHAFT.

Former Jacksonville, Fla., Hotel Man Attempts Suicide at Chicago.

Chicago, March 19.—George B. McGuire, who said he recently had been manager of the Park and Duval hotels, at Jacksonville, Fla., attempted to kill himself by jumping down an elevator shaft from the seventh floor of the Auditorium building. He landed on an ascending car at the fourth floor and was not injured seriously.

McGuire admitted he had jumped down the shaft with suicidal intent.

McGuire was taken to the Harrison street police station where he acted so strangely that his hands and feet were strapped to a chair to prevent him from trying again to end his life by buting his head against the walls of his cell.

In explanation of his despondency, McGuire said he had been drinking heavily for a year and his bibulous habits had caused him to lose his good position in Florida. Soon after he arrived in Chicago, he became intoxicated.

The duel was caused by the memorandum written by General Smirnoff on the siege of Port Arthur in which he questioned the courage of General Fock. The latter considered that his honor and reputation were involved and challenged the author of the memorandum.

WOLVES OF FRANCE.

A Picture of Their Ferocity in the Eighteenth Century.

"The ferocious wolf," said a nature student, "is the most perfect expression of carnivorous bloodthirst that walks. His jaw is the most terrible of weapons. Its slashing bite can break the leg of a buffalo, and the noise of it when at work in a sheepfold resembles nothing so much as the incessant cracking of a heavy whip."

He took down a book.

"Here is what the wolves of France were like," he said. "This is a letter from the famous Duchess of Orleans, dated at Marly, Feb. 9, 1709:

"'Packs of wolves commit fearful ravages. They have devoured the postman of Alencon and his horse. Two of the beasts attacked a tradesman near Mons, one springing at his throat. In response to his shrieks two dragoons who were walking by came to his help. One drew his sword and ran a wolf through the body, on which it turned and seized its new assailant by the throat. His comrade came up and beat the brute off, but not before it had killed the man. Meanwhile the other wolf had seized the second dragoon from behind and dragged him down. Finally when effective help arrived both the soldiers and one wolf were found dead. The other had got away. As for the tradesman, his leg was so piteously torn that it had to be amputated above the knee.'" — Cincinnati Enquirer.

A CLEVER RUSE.

Remember This When You Next Purchase Costly Jewels.

How Mr. Pierpont Morgan made his millions would take volumes to relate, but an amusing little artifice by means of which he succeeded in saving $1,000 can be told within the brief space of a couple of paragraphs.

Some years ago a jewelry firm in New York sent the financier a fine pearl, offering it to him for $5,000. This Mr. Morgan decided to purchase, and two checks were made out—one for $5,000 and the other for $4,000. He then removed the pearl from its box and, having substituted for it the $5,000 check, resealed the package.

Mr. Morgan's clerk was next dispatched to the jeweler's with the sealed box and a note containing the check for $4,000, stating that Mr. Morgan would be pleased to purchase the pearl if they would be satisfied with the check. The unsuspecting jewelers—in ignorance, of course, of what the sealed package now contained—closed with the astute financier's offer. And the box in which the $5,000 check serenely reposed was returned to Mr. Morgan unopened!—Pearson's.

The Queen Bumblebee.

The length of life of a queen bumblebee is probably little more than a year at most. Here is one reason for this belief: She hatches among the late broods of summer and soon after leaves the nest, leading a vagabond existence, night and day, among the autumn flowers. The winter she passes in an earth burrow dug by herself and unaided establishes a colony in the spring. These combined periods of fall and spring require the daily use of her frail wings in the field at least four months. Now, we know that the wings of the worker honeybee wear out in less than half that time; also that the old queens who take to the field after the nest breaks up in August frequently have tattered wings and soon disappear. Nature does not supply insects with new wing cells as it supplies birds with new wing feathers. So the loss of the power of flight at this season of the year to the queen bumblebee means the loss of life.

Soldiers' and Sailors' Bank Deposits.

"It's odd the different sources of bank deposits," remarked a bank official. "For example," he said, "we receive thousands of dollars every year from Cleveland men in the army and navy. The amounts range from $5 a month from privates to $30 or more from some of the officers.

"Most of this is sent to us direct by the paymaster of the army or navy, as the case may be. Just now we are getting a lot of money from men in the navy on this cruise to the Pacific. The paymaster makes out a list of the various deposits and sends along a check to cover the total amount. Thus the men draw their pay and deposit it without ever seeing it. Their pass books in a good many cases are left right here."—Cleveland Plain Dealer.

Despair.

"What do you want o' the editor?" asked the office boy, blocking up the doorway.

"I have a manuscript poem," said the long haired caller, "which I wish to submit for his inspection."

The office boy closed the door, but reappeared a moment later.

"Nothin' doin'. We ain't printin' no poetry now," he said, slamming the door in the caller's face.

"Bard out!" exclaimed the poet, tearing his hair.

"Chestnut!" yelled the boy over the partition. "I've heard that 'un before." —Chicago Tribune.

Albert W. Gilchrist

Candidate for Governor of Florida

No faction, machine or ring, brought him out. He came out as a candidate alone and single-handed. He will be glad to receive the support of the corporations, of the anti-corporations, the prohibitionists and the anti-prohibitionists, of the local optionists, the Christians and the Jews and of the Gentiles, the "Publicans and sinners." He would even accept the support of the Pharisees.

The corporations cannot do without the people, and the people cannot do without the corporations. Neither should be allowed to oppress the other. Capital is organized, labor should organize.

The license tax law licensing each little enterprise should be amended in order that taxation should bear more evenly.

Article XIX of the Constitution provides for Local Option. The qualified electors (not the Governor) approve or veto constitutional amendments. He is not on the "recently constructed band wagon."

He commenced life working in Quincy, Florida, at a salary of $15 per month, and boarded himself. He has himself been a hard-working, struggling man and he knows what it means in others. He has never married, he has always had obligations. His life has been spent more in thoughtful consideration of other people than of himself. He feels sure he will be elected "if he gets enough votes." He does not propose to trade off a single office. There is honor in being Governor. If it is tainted with dishonor he does not want the office.
